

CLAIM AMENDMENTS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Currently Amended) A method comprising:
providing a notification message to a payment card holder of an attempted transaction
using a payment card; and
~~providing multiple wherein the notification message includes a plurality of options for the~~
payment card holder to decline authorization of the attempted transaction.
2. (Currently Amended) The method of claim 1, wherein the ~~multiple~~ plurality of
options comprise a first option for the payment card holder to decline authorization of an
undesirable but non-fraudulent transaction, and a second option for the payment card holder to
decline authorization of a fraudulent transaction.
3. (Previously Presented) The method of claim 2, further comprising:
receiving a selection made by the payment card holder of the first option; and
based on the selection, providing a message to a merchant involved in the attempted
transaction to decline the attempted transaction and to return the payment card to
an individual attempting the transaction.
4. (Previously Presented) The method of claim 2, further comprising:
receiving a selection made by the payment card holder of the second option; and
based on the selection, providing a message to a merchant involved in the attempted
transaction to decline the attempted transaction and to withhold the payment card
from an individual attempting the transaction.
5. (Previously Presented) The method of claim 2, further comprising:
receiving a selection made by the payment card holder of the second option; and
based on the selection, locking an account associated with the payment card.

6. (Previously Presented) The method of claim 2, further comprising:
receiving a selection made by the payment card holder of the second option; and
based on the selection, automatically reporting the fraudulent transaction to a law
enforcement authority.

7. (Previously Presented) The method of claim 2, further comprising:
receiving a selection made by the payment card holder of the second option; and
based on the selection, automatically reporting the fraudulent transaction to a credit
reporting agency.

8. (Currently Amended) The method of claim 1, further comprising:
receiving a selection made by the payment card holder of one of the ~~multiple~~ plurality of
options to decline the attempted transaction; and
sending a reason code to a merchant involved in the attempted transaction to indicate why
the attempted transaction has been declined.

9. (Previously Presented) The method of claim 1, further comprising:
providing an option for the payment card holder to authorize the transaction.

10. (Previously Presented) The method of claim 1, wherein the notification message
indicates a transaction amount, a merchant name, and at least part of a number of the payment
card.

11. (Currently Amended) A system comprising:

a payment card transaction notification and authorization system configured to provide a notification message to a payment card holder of an attempted transaction using a payment card, ~~and to provide multiple options~~ a first option for the payment card holder to decline authorization of the attempted transaction, to provide a second option for the payment card holder to decline authorization of the attempted transaction, and to decline authorization of the attempted transaction in response to receiving information indicating an input selecting the first option or the second option by the payment card holder.

12. (Currently Amended) The system of claim 11, wherein the ~~multiple options~~ comprise a first option for the payment card holder to decline relates to declining authorization of an undesirable but non-fraudulent transaction, and ~~[[a]] the second option for the payment card holder to decline~~ relates to declining authorization of a fraudulent transaction.

13. (Currently Amended) The system of claim 12, wherein the payment card transaction notification and authorization system is further configured ~~to receive a selection made by the payment card holder of the first option, and based on the selection,~~ to provide a message to a merchant involved in the attempted transaction to decline the attempted transaction and to return the payment card to an individual attempting the transaction in response to receiving information indicating an input selecting the first option by the payment card holder.

14. (Currently Amended) The system of claim 12, wherein the payment card transaction notification and authorization system is further configured ~~to receive a selection made by the payment card holder of the second option, and based on the selection,~~ to provide a message to a merchant involved in the attempted transaction to decline the attempted transaction and to withhold the payment card from an individual attempting the transaction in response to receiving information indicating an input selecting the second option by the payment card holder.

15. (Currently Amended) The system of claim 12, wherein the payment card transaction notification and authorization system is further configured ~~to receive a selection made by the payment card holder of the second option, and based on the selection,~~ to lock an account

associated with the payment card in response to receiving information indicating an input selecting the second option by the payment card holder.

16. (Currently Amended) The system of claim 12, wherein the payment card transaction notification and authorization system is further configured to receive a selection made by the payment card holder of the second option, and based on the selection, to automatically report the fraudulent transaction to a law enforcement authority in response to receiving information indicating an input selecting the second option by the payment card holder.

17. (Currently Amended) The system of claim 12, wherein the payment card transaction notification and authorization system is further configured ~~to receive a selection made by the payment card holder of the second option, and based on the selection,~~ to automatically report the fraudulent transaction to a credit reporting agency in response to receiving information indicating an input selecting the second option by the payment card holder.

18. (Currently Amended) The system of claim 11, wherein the payment card transaction notification and authorization system is further configured to receive a selection made by the payment card holder of one of the multiple options to decline the attempted transaction, and to send a reason code to a merchant involved in the attempted transaction to indicate why the attempted transaction has been declined in response to receiving information indicating the input to select the first option or the second option by the payment card holder.

19. (Currently Amended) The system of claim 11, wherein the payment card transaction notification and authorization system is further configured to provide an option for the payment card holder to authorize the transaction.

20. (Previously Presented) The system of claim 11, wherein the notification message indicates a transaction amount, a merchant name, and at least part of a number of the payment card.

21. (Currently Amended) The system of claim 11, wherein the payment card transaction notification and authorization system is further configured to increase a purchase limit threshold

for the payment card based on a short message service (SMS) message received from the payment card holder.

22. (Original) A method comprising:

providing a notification message to a payment card holder of an attempted transaction using a payment card, the notification message indicating a transaction amount, a merchant name, and at least part of a number of the payment card;

providing an option for the payment card holder to authorize the transaction;

providing multiple options for the payment card holder to decline authorization of the attempted transaction, the multiple options comprising a first option for the payment card holder to decline authorization of an undesirable but non-fraudulent transaction, and a second option for the payment card holder to decline authorization of a fraudulent transaction;

receiving a selection of one of the options made by the payment card holder;

if the selection is of the first option, providing a message to a merchant involved in the attempted transaction to decline the attempted transaction and to return the payment card to an individual attempting the transaction; and

if the selection is of the second option, locking an account associated with the payment card and providing a message to the merchant involved in the attempted transaction to decline the attempted transaction and to withhold the payment card from the individual attempting the transaction.
